VI. COMMENTARY

June was a month that felt more back to normal than all the others. It was great seeing all agriculture teachers at the State Convention and IAVAT Conference. Other major activities involved preparing and hosting District Professional on the Land Use CDE with the new changes to Homesite. It was great to see the 19 2nd year teachers at the Celebration Conference in Springfield. I look forward to working with the 9 new teachers in District 1 in July and helping them get ready for an improved year.
