VI. COMMENTARY

As we enter May, we are beginning to see changes allowing for more in person gathering. We are happy to be able to see the teachers and students in person this summer at our various events. As we come to the end of the school year wrapping up data information for students, teachers, and college and high school programs has been a priority. There has also be a focus on professional development events and we were very happy to have the State Ag Ed CDE in person!
