Liberty High School
505 N Park St.
Liberty, IL 62347

FFA Chapters & 4-H Clubs:

The Liberty FFA Alumni is hosting their twenty second annual invitational livestock judging contest on **March 11, 2023** at the Liberty High School. Registration will begin at **8:30 AM**, contest directions at **9:00 AM** with the actual contest beginning at **9:15 AM**. The contest will consist of eight rings of livestock, three rings of cattle, two rings of swine, and three rings of sheep. There will be a questions class for beef, swine and sheep.

This year again we will have a senior and a junior division. To be considered a junior team all team members must be in the 8th grade or lower. The senior division will be having at least one member of the team in the 9th grade or above. Team members must be in 12th grade or lower. To compete in the senior division, an individual must be in the 12th grade or lower.

Awards in the senior division will be awarded to the top twenty individuals and the top 8 teams overall in the contest. Awards in the junior division will be awarded to the top ten individuals and the top 3 overall teams. There will be plaques for the top overall team in each of the species. The entry fee is **\$25/team** and **\$7/individual**.

A team will consist of **four members with all four scores** counting towards the team total. Ties will be broken with the question scores. A chapter or club may enter as many teams as they would like.

This year, we will be using a scantron card instead of the individual ring cards. Contestants will need to complete the scantron using a #2 lead pencils. I have attached a sample of the scantron we will be using that day. It is found at judgingcard.com. It is the Livestock Form #705A-12. We will have extra alumni members assisting the contestants to complete the scantron if needed.

If you are planning to participate, a reply by March 10th would greatly be appreciated. If you have any questions please contact Rachel Whitlock at rachel.whitlock@libertyschool.net or Mariana Roberts at mariana.roberts@libertyschool.net.

Hope to see you there!

Thank you,
Rachel Whitlock & Mariana Roberts
