

2021 Bayer Soybean Pod Challenge

- FFA chapters compete to produce most pods on single soybean plants.
- Can be developed as project for state Agriscience Fair by designing multifactorial experiment.
- All factors to encourage podding are acceptable:
 - Wide plant spacing.
 - Enhanced fertilization.
 - Irrigation/ hand watering.
 - Pruning.
 - ???
- Local advisor to certify results.
 - Complete entry form.
 - Include photos.
- Sharing of methods and results on social media using #SoybeanPodChallenge is encouraged.
- Prizes to be provided to chapter/individuals with highest number of pods on a single plant.
- Register for contest at: <https://bit.ly/3INPQlg> by April 16, 2021.
