Email Correspondence with Various Individuals in Agricultural Education

Moved Office Location to Patoka, Illinois

VI. COMMENTARY

Moving office locations was once again a priority to overcome this month, and it was accomplished! Meeting with college students at two different post-secondary institutions was rewarding to see their enthusiasm and answering their questions about the profession. SIUC did a tremendous job as they hosted Temple Grandin for nearly 800 agriculture students to meet and listen to her thoughts on dealing with her diagnosis of autism as well as learn more about her skills/findings in treating animals humanely.
